**FAMU STUDENTS FROM THE ARCHITECTURE AND LANDSCAPE
ARCHITECTURE PROGRAMS ATTEND FIELD TOUR OF CAPITAL
CIRCLE SOUTHEAST**

Tallahassee – Blueprint 2000 held a field tour for the Capital Circle Southeast Construction Project Wednesday, March 26, 2008 for eleven students from the Florida A&M University Architecture and Landscape Architecture Programs, including C.L. Bohannon, Assistant Professor of Landscape Architecture. Leading the tour was J.W. Hunter, P.E., Resident Engineer for Parsons Brinckerhoff and Scott Stoutamire, Construction Project Administrator for PBS&J. The students were given an overview of Blueprint 2000's philosophy regarding roadway design and construction as well specific details concerning asphalt paving for the project. Every undergraduate left the tour with a better knowledge of how the road paving process works and a new appreciation of the hard work and dedication for Transportation Construction Professionals. Blueprint 2000 would like to wish these students a successful career in their programs.
