**Sinkhole Repaired and Westbound Lane is Reopened on
Capital Circle Southeast**

Tallahassee – After assessment by a geotechnical engineer, the sinkhole that opened up one mile east of Woodville Highway on Capital Circle Southeast has been repaired. The west bound lane is now open and two-lane traffic has been reestablished. Blueprint 2000 and construction crews worked very hard to reopen the road in a timely manner.

There will be periodic alternating one-lane restrictions one mile east of Woodville Highway on Capital Circle Southeast next week, November 10-14, 2008 to enable the contractor to further investigate areas around the sinkhole.

If you have questions, please contact Blueprint 2000 at 850-701-2740.
