Traffic Switch Scheduled for Capital Circle Southeast

Tallahassee – Blueprint 2000 announces beginning on Saturday, December 19th (weather permitting), Capital Circle Southeast traffic will be switched from the existing roadway to the newly constructed lanes, which run parallel to the existing roadway. The switch will begin west of Woodville Highway and end south of Tram Road.

The ability to turn left at the Woodville Highway intersection will be allowed; however, occasional closures will be necessary. The existing roadway will be closed to traffic to allow the contractor to reconstruct the roadway. Minimal traffic delays are possible.

For your safety, residents and motorists are urged to observe all project signage and traffic control measures, including any reduced speed limits.

If you have any concerns regarding this traffic switch, please contact the Blueprint 2000 Public Involvement office at 850.701.2740. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.

Thank you for your patience while these important improvements are completed.
