

## Capital Circle Southwest - Public Meeting #1

(Springhill Road to SR 20)  
Tuesday, January 25, 2005  
6:00 P.M. – 8:00 P.M.

At

Tallahassee Community College  
Center for Economic and Workforce Development  
444 Appleyard Drive  
Tallahassee, Florida

Blueprint 2000 & Beyond, a joint organization of Leon County and the City of Tallahassee, is beginning the process of investigating the best location for future improvements to Capital Circle (State Road 263) between Springhill Road (County Road 2203) and Blountstown Highway (State Road 20)—a distance of approx. 4.5 miles (please refer to the attached map).

Using the Blueprint 2000 & Beyond "Project Definitions Report", prepared by the Economic and Environmental Consensus Committee in 1999, and the Lake Bradford Sector Plan, conducted by the Tallahassee/Leon County Planning Department, as a foundation for the project, Blueprint 2000 staff has identified several potential corridors/alignments. These corridors include upgrading Capital Circle along the existing alignment; upgrading and using a portion of either Springhill Road and/or Orange Avenue; or, constructing a new section of Capital Circle on a new alignment and using the existing roadway as a spur/access road to the airport.

Blueprint 2000 is seeking the public's input to help define the alternatives. We will be holding several public meetings to receive input and foster communication among the various interests within the area. The first meeting will be held from 6:00 p.m. to 8:00 p.m. on January 25, 2005 at The Center for Economic and Workforce Development on the Tallahassee Community College Campus.

Then, this summer, Blueprint 2000 will hire a consultant to conduct an Expanded Project Development & Environment (EPD&E) Study on the most desirable/viable alternatives. The EPD&E Study will continue with more in-depth data collection, analysis, documentation and public involvement consistent with all local, state and federal guidelines.

Blueprint 2000 recognizes that this is a very important project for the future growth and development of southwest Tallahassee and Leon County. We are also aware of nearby neighborhood concerns and environmentally sensitive lands and water bodies in the corridor. Blueprint 2000 staff will continue to apply the Blueprint philosophy – incorporating regional stormwater, greenway, aesthetic, and recreation improvements in conjunction with the transportation improvements on this project.

If you have any questions, please contact:

Jim Shepherd, P.E., Project Manager; or  
Susan Emmanuel, Public Information Officer  
(850) 891-1880

*This meeting will be held in compliance with the Americans with Disabilities Act (ADA). Anyone requesting special accommodations may call Bonnie Pfunter at (850) 891-1880, at least 7 days prior to the meeting. TDD users may call 711 for assistance.*
