## New Traffic Pattern on Southbound Capital Circle NW begins Sunday, November 13, 2016

Starting at 7 p.m. Sunday, November 13, there will be a new traffic pattern on southbound Capital Circle NW. Beginning just south of West Tennessee Street, the three existing southbound travel lanes will be shifted onto the two inside travel lanes. This two-lane pattern will continue south through the Capital Circle NW/ Swamp Fox Road intersection. At that point, traffic will be shifted onto one travel lane over the CSX railroad bridge. This traffic new pattern will be clearly marked and full access to area businesses will be maintained at all times. There will be no change to the northbound Capital Circle NW/SW traffic pattern. Please use caution when traveling through the construction zone.

Note: All activities are weather dependent and may be delayed or re-scheduled in the event of inclement weather.
