Intermittent Delays Anticipated on Capital Circle Northwest/Southwest from Orange Avenue to State Road (S.R.) 10/U.S. 90

Tallahassee - Beginning Monday, December 17, 2012, work will begin on the improvements to Capital Circle Northwest/Southwest. Trucks will be entering and leaving the roadway at several points along Capital Circle between Orange Avenue and S.R. 10/U.S. 90/West Tennessee Street to accommodate various construction activities. These construction activities will take place between 7 a.m. and 6 p.m., seven days a week. Flagmen may be present at points where trucks are entering or leaving the roadway. Intermittent delays are possible, please plan accordingly.

Please use caution when traveling through the work zone.

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.

###
Construction Milestone: The Final Pour on Franklin Boulevard

Blueprint 2000 invites you to the final pour of concrete that will enclose the last remaining segment of the open ditch along Franklin Boulevard. The pour is scheduled to occur on Monday, November 19th and will take place at the corner of Franklin Boulevard and East Tennessee Street at approximately 2:00 p.m.

This is a significant construction milestone and is effectively changing the future of Franklin Boulevard and the placing into history the flooding to which the area is prone. The enclosure of the ditch is the result of several agencies working together to substantially reduce the impact of stormwater on local residents and traffic along this vital thoroughfare. The Florida Department of Economic Opportunity, Leon County and the City of Tallahassee share the credit for bringing this effort to fruition. This project would not have been possible without the help of a $4.2 million Community Development Block Grant from the U.S. Department of Housing and Urban Development.

This stormwater improvement project to reduce flooding on Franklin Boulevard has been a long-awaited project for many, and residents and motorists will be pleased to welcome the advent of safer conditions on Franklin Boulevard!

We hope to see you at this Construction Milestone event.

Please note: More than one City or County Commissioner may be in attendance at this event.

###
Ribbon Cutting Ceremony for Capital Circle Southeast
Crawfordville Road to Woodville Highway

Tallahassee – Blueprint 2000 will hold a Ribbon Cutting Ceremony for the Grand Opening of the widening of Capital Circle Southeast on Wednesday, November 14, 2012 at 10:30 a.m. The event will take place at Southwood Baptist Church, located at 5177 Capital Circle S.W., in Tallahassee.

Speakers scheduled to attend the ceremony are: Chief Operating Officer David Hawk, Florida Division of the Federal Highway Administration; City of Tallahassee Commissioner and Blueprint 2000 IA Chairman Nancy Miller; Leon County Commission Vice Chairman Nick Maddox; Leon County District 1 Commissioner Bill Proctor and City of Tallahassee Mayor John Marks.

The 1.15 mile seven-lane project kicked off in 2010 and now provides a sidewalk, meandering trail, bicycle lanes, curb and gutter, significant storm drainage facilities, and a landscaped median.

If you have questions, please contact Blueprint 2000 at 850.219.1060. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.

###
Capital Circle Southeast  
Ribbon Cutting Ceremony  
Wednesday, November 14, 2012  
10:30 a.m.

Agenda

I. Welcome and Introductions......................... Wayne Tedder, Director of PLACE Planning, Land Management and Community Enhancement

II. Introduction of City of Tallahassee Commissioner and Blueprint 2000 Chairman ... Commissioner Nancy Miller

Comments.......................................................................................... Commissioner Miller

III. Introduction of City of Tallahassee Mayor John Marks, III

Comments.......................................................................................... Mayor Marks

IV. Introduction of Leon County Vice Chairman Commissioner Nick Maddox

Comments.......................................................................................... Commissioner Maddox

V. Introduction of Leon County District 1 Commissioner Bill Proctor

Comments.......................................................................................... Commissioner Proctor

VI. Our guest speaker is Chief Operating Officer of the, Florida Division of the Federal Highway Administration, David Hawk

Comments.......................................................................................... Chief Operating Officer David Hawk

VII. Ribbon Cutting Announcement.......Invite city, county, state officials to gather around for the official cutting of the ribbon.

VIII. Thank you everyone for joining us today and I hope you are able to stay a few minutes longer and enjoy the occasion and the refreshments.
A Special Thank You

This project would not have been possible without the financial support provided by the United States Housing and Urban Development Administration and the Florida Department of Economic Development along with the coordination assistance provided by Leon County and the City of Tallahassee. In addition, the Franklin Boulevard neighborhood was instrumental in determining the project scope and providing right-of-way easements to facilitate the aggressive construction schedule. We wish to say “Thank You” to everyone that played a role in this corridor transformation.

Project Description:

The project consists of installation of approximately 2,300 feet of continuous concrete box culvert (CBC) to replace the existing open stormwater conveyance (ditch) along Franklin Boulevard, and to provide a connection to the existing conveyance under East Tennessee Street and the existing storm sewer system at Leon High School. The existing divided 4-lane road is being replaced by a 2-lane roadway with sections of median, pedestrian amenities, landscaping, updated traffic signals and new street lighting. No right-of-way had to be purchased to build the project. Several temporary construction easements and permanent guy wire easements for City Electric overhead power lines have been donated by local residents to accommodate the project.

NEW FRANKLIN BOULEVARD

- Flooding substantially reduced
- Twenty adjacent buildings removed from 100-year floodplain
- Turn lanes added to major intersections
- Pedestrian Friendly Corridor – Multi-Use Trail on west side and sidewalk on east side
- Bike lanes in both directions
- Landscaping and Irrigation
- Decorative roadway and trail lighting
- Bench and drinking fountain
- Upgraded all existing utilities including sanitary sewer, gas and water

www.blueprint2000.org
Typical Section:
The typical Franklin Boulevard cross section is comprised of two 11-foot travel lanes with a 4-foot bike lane and concrete curbs in northbound and southbound directions. The travel lanes are separated at some locations by left turn lanes (at five intersections) and five sections of varying width median. The east side of the project includes a 3-foot sodded utility strip and 5-foot concrete sidewalk parallel to the road. The west side of the project includes a 10-foot concrete multi-use trail.

Project Schedule and Sequence of Construction:
The construction contract for Franklin Boulevard drainage improvements and the existing 4-lane road reconstruction with M of Tallahassee was executed on December 16, 2011. Due to HUD Grant time limitations, the contract was based on the original design for a 4-lane project. However, at a special Intergovernmental Agency (IA) meeting held on November 14, 2011, the IA approved the 2-lane project concept and additional funding for change of the project scope. Blueprint issued a limited Notice to Proceed to the contractor on January 2, 2012, to provide Maintenance of Traffic (MOT) facilities for utility relocation and to install a 200 feet section of the 12’x8’ CBC under Capital Cascade Trail Segment 2 permit.

Upon receipt of FDEP/USACE Permit on April 19, 2011, Blueprint issued full Notice to Proceed to M of Tallahassee for construction of the project. The final design of the 2-lane road was finalized on May 31, and contractor proceeded to complete the utilities, CBC and road construction “block by block” in order to open the completed segments of the road to traffic.

Since mid-October, construction of the CBC and the sanitary sewer and water supply system is substantially complete. Franklin Boulevard is covered with the first layer of asphalt from Apalachee Parkway to Park Avenue. The road is open to traffic between Apalachee Parkway to College Avenue.

Old Franklin Boulevard
- Two drownings
- Hundreds of thousands of dollars in property damage
- Constant road closures
- Twenty adjacent buildings in 100-year floodplain
- No turn lanes
- No bike lanes
- No pedestrian amenities/children walk to school in roadway
- No landscaping

Project Funding:
The project has received funding assistance of $4,200,000 from the U.S. Department of Housing and Urban Development (HUD). It is Segment No. 1 (out of 4) of the Capital Cascades Trail project, and the elements of this project have been designed and permitted as primary drainage improvements along this Trail Segment. As the project progressed, additional needs and public expectations were identified and the project scope was expanded. The replacement of the existing sanitary sewer and water supply system, landscaping, irrigation, upgraded traffic signals at Pensacola Street and Park Avenue intersections, new street lighting and drainage collection system enhancements were the main items of the scope increase. The total project cost, including design/permitting, construction and construction engineering and inspection (CEI), is $10,590,000.

Groundbreaking Ceremony for the Widening of  
Capital Circle Northwest/Southwest (State Road 263)

Blueprint 2000 will hold a Groundbreaking Ceremony for the widening of Capital Circle Northwest/Southwest on Monday, October 29, 2012 at 10:30 a.m. The ceremony will take place across from Uncle Bob’s Storage, located at 1011 Capital Circle Southwest in Tallahassee.

Speakers scheduled to attend the ceremony are: District Three Director of Transportation Operations Phillip Gainer, Florida Department of Transportation; City of Tallahassee Commissioner and Blueprint 2000 IA Chairman Nancy Miller; Leon County Commission Chairman Akin Akinyemi; Leon County District 2 Commissioner Jane G. Sauls and City of Tallahassee Mayor John Marks.

Improvements for this portion of Capital Circle Northwest/Southwest (State Road 263) include widening the existing two-lane undivided rural road to a six-lane divided urban (curb and gutter) facility. The 2.9 mile project will include intersection improvements, and significant landscaping as well as pedestrian, bicycle and recreational amenities. New traffic signals will be provided at the Blountstown Highway and Gum Road intersections. The project limits are from north of Orange Avenue (State Road 371) to south of Tennessee Street (US 90/State Road 10). In addition, the project includes considerable environmental mitigation in the Gum Swamp area, and the purchase of the Delta Industrial Park and Broadmoor Estates Mobile Home Park for stormwater and environmental mitigation. Bridges will be constructed over the CSX Railroad and Gum Creek, and wildlife crossings will be constructed at Gum Swamp.

The contractor for this project is Anderson Columbia Co., Inc. The construction cost is approximately $57 million, of which approximately $23 million will be provided through federal funding. Atkins North America, Inc. will be providing Construction Engineering and Inspection (CEI) services for the project. Construction is anticipated to begin November 5, 2012 and be completed in the fall of 2015.

Upon completion of the project Blueprint 2000 will have completed nearly 12 miles of Capital Circle improvements from just south of Apalachee Parkway to Crawfordville Highway and from Interstate 10 to north of Orange Avenue (State Road 371).

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.

NEW TRAFFIC PATTERN ON FRANKLIN BOULEVARD

Beginning on Tuesday, September 4, a new traffic pattern will be in effect for a portion of Franklin Boulevard. The section of Franklin Boulevard from East Jefferson Street to College Avenue will be open to motorists in both directions. Due to the new road design, motorists traveling on East Jefferson Street will not be able to cross the Franklin Boulevard intersection. Motorists traveling eastbound on East Jefferson Street will only be able to make a right turn onto Franklin Boulevard. In addition, motorists traveling westbound on East Jefferson Street will only be able to make a right turn and left turn onto Franklin Boulevard.

Arrow boards and signs will be in place prior to the work zone to alert motorists of the upcoming traffic pattern. All work is weather permitting.

###
Tallahassee - Blueprint 2000 announces the closure of Call Street between Meridian Street and Cadiz Street. The closure will begin at 7:00 a.m., on Tuesday, August 21, 2012, and will continue until 5:00 p.m., Friday, October 19, 2012. The road closure is needed to continue the box culvert installation and associated road work as part of the Franklin Boulevard Flood Relief Project.

Eastbound through traffic on Call Street will be detoured to Meridian Street, Park Avenue, Cadiz Street and then back to Call Street. Westbound through traffic on Call Street will be detoured to Cadiz Street, Park Avenue, Meridian Street, and then back to Call Street. The Call Street/Franklin Boulevard intersection will not be closed until the Park Avenue/Franklin Boulevard intersection is opened.

All residences and businesses will have access to their properties for the duration of the closure. Detour signs will be in place to direct motorists around the closure using adjacent streets. Attached and enclosed is a map of the detour route.

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, visit www.blueprint2000.org. For detour maps on Blueprint 2000 and Leon County projects, click on “In the Works” on Blueprint 2000’s home page.

DISCOVERY AT CASCADES PARK UNVEILED

Renderings Revealed for Family-Oriented Playscape

Tallahassee, Fla. – Representatives from the Knight Creative Communities Institute (KCCI) unveiled plans for their much anticipated Discovery at Cascades Park, a family-oriented playscape. This space, designed for the enjoyment of children and visitors of all ages, will present a variety of Florida environments intended to engage the senses and imagination. Today’s event, attended by City, County and local business leaders, not only unveiled plans for this space but also announced the presenting sponsor, First Commerce Credit Union.

“We are thrilled to unveil the vision and renderings for the Discovery project,” said Cecilia D. Homison, CEO of First Commerce Credit Union. “Discovery showcases our commitment to our community and supports the ongoing revitalization of our Capital City. We commend KCCI and its Cultivate Cascades volunteer team for the initiative they took in adding an interactive education and play area for families to Cascades Park.”

Discovery at Cascades Park, designed by Meghan Mick of From the Ground Up, and developed and fundraised by KCCI’s Cultivate Cascades team, is funded through private donations making this a true community project.

"This is a wonderful addition to the park," said Dave Snyder, Program Manager for Blueprint 2000. "Discovery at Cascades Park will be a place where kids of all ages can play."

-MORE-
Visual features include habitat gardens, a water play area, boulders, climbing logs, artwork and interpretative signage. The space is set to open in the spring of 2013, and will feature active, multi-sensory elements including:
- Interactive water feature with farm pump
- Climbing logs and jumps
- Steephead slide
- Butterfly garden
- Beach / sand area
- Outdoor classroom

"The strong local partnerships and financial contributions have been a vital component in helping bring to life a space that will truly benefit the entire community," said Laurie Hartsfield, Executive Director for KCCI. "We have been inspired by the support as our team has been working over the past 5 months to make this project a reality."

*Discovery* at Cascades Park is a unique partnership which brings private dollars to develop a new amenity planned within the public Cascades Park space. Thoughtfully designed with natural materials, *Discovery* features indigenous vegetation with creative landforms to create a purposefully complex area that will challenge and fascinate children. Research shows these types of environments offer a wide range of benefits, such as increasing physical activity, developing motor skills and contributing to cognitive development. In addition, it offers the opportunity for creativity and imaginative outdoor play.

"As the leader in children's medical care, keeping them healthy and fit is paramount to Tallahassee Memorial colleagues," said Mark O'Bryant, President & CEO of Tallahassee Memorial HealthCare. "We are looking forward to being involved in making the Cascades Park's interactive water feature an active experience for them."

In addition to First Commerce Credit Union, project sponsors include: Tallahassee Memorial HealthCare; The COPE Coalition; CSX; Hopping, Green and Sams; Get Outdoors Florida!; Florida Wildlife Federation; The Caire family; Berneice Cox; North American Properties; Radey, Thomas, Yon & Clark; Debbie Dantin; Allison Tant; and St. John's Episcopal Church.

In-kind sponsors are comprised of: From the Ground Up; Sandco; Esposito’s; BowStern Marketing; Tallahassee Democrat; Full Press Apparel; Genesis; Persico; Gary Yordon Governance, Inc.; Apogee; VanCore Jones and Miller’s Tree Service.

For more information about Discovery at Cascades Park, or to receive project updates, visit www.discoveryatcascades.com or for more information about KCCI, visit www.kccitallahassee.com.

# # #

**About KCCI's Cultivate Cascades Team**
The Cultivate Cascades team is one of three KCCI projects for 2011-2012. The team chose the task of branding Cascades Park as a Tallahassee landmark by ensuring that visitors are drawn into the park through a variety of diverse activities. For more information about KCCI and its other projects, please visit www.kccitallahassee.com.

The Cultivate Cascades Team is comprised of 16 community leaders representing a wide range of talent and experience who volunteer because of our commitment to the community. Catalysts include: Co-Chairs: Betsy Couch, FSU and Berneice Cox, The Bacall Group; and team members include Melanie Weaver Carr, FDOT; Lakendra Cunningham, Executive Assistant for the Leon County Board of Commissioners; Rick Frazier, TCC; Julz Graham, WFSU; Bill Gwaltney, William Gwaltney, Attorneys at Law; Debbie Huey, Community Volunteer; Josh Newman, FSU; Paul Rutkovsky, FSU Artist; Carly Sinnadurai, The Sharing Tree; Robin Smith, North Florida Financial Corporation; Carlos Torregrosa, Divas & Devils; John Van Gieson, Writer & Consultant; Andrew Wilcox, Wilcox & Hackett; Brian Zettle, ProSteel Buildings, Inc.

**About First Commerce Credit Union (Presenting Sponsor)**
Those who live or work in the following counties can take advantage of First Commerce products and services: Leon, Gadsden, Jefferson, Madison, Liberty, Wakulla, Jackson, Holmes, Calhoun, Taylor, Washington, Walton and Thomas County, GA. Florida Commerce has seven financial centers - six in Tallahassee and a location in Marianna - and provides access to thousands of ATMs across the country through a credit union network.
NEWS RELEASE

Blueprint 2000 announces the closure of Gaines Street between Gadsden Street and Suwannee Street for approximately two months. The closure is anticipated to begin at 9:00 a.m., on Thursday, July 12, and continue through Sunday, September 9, 2012. However, a portion of Gaines Street from Meridian Street to Suwannee Street will remain closed permanently. The road closure is part of the Cascades Park construction project and is needed for the completion of Cascades Park.

- Eastbound traffic on Gaines Street will be detoured north onto Gadsden Street to Madison Street.
- Westbound traffic on Gaines Street/Myers Park Drive will be detoured north onto Suwannee Street to Lafayette Street.

Detour signs will be in place to direct motorists around the closure. Attached and enclosed is a map of the detour route.

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.

###
MEDIA ALERT

Plans Unveiled for New Family-Oriented Feature in Tallahassee

WHAT: KCCI Community Volunteers, Business Leaders, Elected Officials and City and County Leaders will unveil plans for a new space in the community designed to engage the senses and imagination; Discovery at Cascades Park. Visitors of all ages can enjoy approximately 7,000 square-feet of natural, interactive, and recreational features that promote outdoor activity and incorporate educational aspects.

The project resulted from the efforts and research conducted earlier this year by the KCCI Cultivate Cascades Team and is funded by the private sector.

WHO: City of Tallahassee Mayor John Marks
County Commission Chairman Akin Akinyemi
City Commissioner Nancy Miller, Blueprint 2000 Chair
Laurie Hartsfield, Executive Director, KCCI
Cecilia Homison, President & CEO, First Commerce Credit Union
KCCI Cultivate Cascades Members

WHEN: Monday, July 9
Noon

WHERE: City Hall, Tallahassee Room, 2nd Floor

On-Site Contacts: Margie Quillman, Public Involvement Manager, 219-1075
Betsy Couch, KCCI Cultivate Cascades Co-Chair, 509-3767

DETAILS: Renderings and images of the playscape and amenity logo will be debuted. Interviews can also be conducted with additional attendees including playscape designer, Meghan Mick, with From the Ground Up, area school children who provided design input for the space and sponsors of the project.

Blueprint 2000, Leon County and the Capital Regional Transportation Planning Agency to Discuss Roadway Project Schedules

Tallahassee - Blueprint 2000, in coordination with Leon County and the Capital Regional Transportation Planning Agency, has scheduled a second Community Open House to continue providing information regarding current and upcoming construction activities and road closures scheduled for downtown Tallahassee throughout 2012. This meeting is to inform the community of the closures in an effort to minimize disruptions to the community during these road closures.

The meeting will take this evening, from 5:30 p.m. to 7:00 p.m. at the Florida Department of Transportation Auditorium, 605 Suwannee Street, Tallahassee, Florida. There will be a brief presentation of project locations and their construction schedules starting at 5:45 p.m.

Please visit our website at www.blueprint2000.org for information on current and upcoming construction activities that may impact you and/or your business.

Please note: More than one City or County Commissioner may be in attendance at this meeting.

Tallahassee - Blueprint 2000 announces the closure of Franklin Boulevard from south of Park Avenue to north of Pensacola Street. The closure will begin at 7:00 a.m., on Wednesday, May 2, 2012, and will continue until 5:00 p.m., Sunday, July 1, 2012. The road closure is needed to continue the box culvert installation on Franklin Boulevard.

Southbound through traffic on Franklin Boulevard will be detoured to Park Avenue while the northbound through traffic will be detoured to Pensacola Street. It is planned to have the intersection at Franklin Boulevard and Jefferson Street opened after May 18th, so the eastbound and westbound traffic on Jefferson Street can cross Franklin Boulevard. In addition, the intersection at Franklin Boulevard and College Avenue is planned to open after May 21st, so the eastbound and westbound traffic on College Avenue can cross Franklin Boulevard.

All residences and businesses will have access to their property for the duration of the closure. Detour signs will be in place to direct motorists around the closure using adjacent streets.

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, visit www.blueprint2000.org.

TEMPORARY CLOSURE OF FRANKLIN BOULEVARD FOR 30 DAYS

Tallahassee - Blueprint 2000 announces a 30-day closure of Franklin Boulevard at the intersection of Jefferson Street. The closure will begin at 7:00 a.m., on Thursday, April 19, 2012, and will continue until 5:00 p.m., Saturday, May 18, 2012. The road closure is needed for the installation of a stormwater box culvert. All residences and businesses will have access to their property for the duration of the closure.

Northbound and southbound traffic on Franklin Boulevard will remain unchanged between Tennessee Street and College Avenue during this closure. No through traffic will be allowed on Franklin Boulevard between College Avenue and Pensacola Street. Westbound traffic on Jefferson Street will be detoured to College Avenue and then to Franklin Boulevard. Eastbound traffic on Jefferson Street will be detoured north onto Meridian Street then east onto College Avenue to Franklin Boulevard.

Detour signs will be in place to direct motorists around the closure.

###
Tallahassee - Blueprint 2000, in coordination with Leon County and the Capital Regional Transportation Planning Agency, has scheduled a Community Open House to provide information regarding current and upcoming construction activities and road closures scheduled for downtown Tallahassee throughout 2012. This meeting will outline the efforts of these agencies to ensure all roadway closures are comprehensively coordinated in order to minimize the disruptions to the community during road closures and to offer the use of the downtown transportation network as an alternative to the impacted roadways.

The meeting will take place on Thursday, March 15, 2012, from 5:30 p.m. to 7:30 p.m at the Florida Department of Transportation Auditorium, 605 Suwannee Street, Tallahassee, Florida. There will be a brief presentation of project locations and their construction schedules starting at 6:00 p.m.

Please visit our website at www.blueprint2000.org for information on current and upcoming construction activities that may impact you and/or your business.

Please note: More than one City or County Commissioner may be in attendance at this meeting.

###
NEWS RELEASE

Blueprint 2000 announces the closure of Shelfer Road between Crossway Road and Capital Circle for approximately six weeks. The closure is anticipated to begin at 9:00 a.m., on Thursday, March 15, and continue to 5:00 p.m., through Monday, April 30, 2012. The road closure is needed to replace a 42-inch sanitary force main valve.

- Eastbound traffic on Capital Circle will be detoured north on Woodville Highway, then west on Crossway Road.
- Westbound traffic on Capital Circle will be detoured north on Crawfordville Road, then east on Crossway Road to Shelves Road.
- Southbound traffic on Shelves Road will either detour east or west on Woodville Highway or Crawfordville Road to Capital Circle.

Motorists are advised to follow the speed limits on the detour routes. Detour routes will be clearly posted.

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.

###
NEWS RELEASE

Blueprint 2000 announces the closure of Lafayette Street between Suwannee Street and the CSX Railroad overpass for approximately three months. The closure is anticipated to begin at 9:00 a.m., on Monday, March 12, and continue through Friday, June 15, 2012. The road closure is part of the Cascades Park construction project and is needed to reconstruct the roadway, replace the storm sewer, and upgrade the sidewalk.

Traffic will be detoured at the intersections of Myers Park Drive/Lafayette Street and Lafayette Street/Suwannee Street. Motorists are advised to follow the speed limits on the detour routes. Detour routes will be clearly posted.

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.

###
TEMPORARY CLOSURE OF SUWANNEE STREET - UPDATE

Blueprint 2000 recently announced the one-day closure of Suwannee Street between Gaines Street and Lafayette Street to all traffic on Saturday, March 3, from 7:00 a.m. to 5:00 p.m. The closure has been extended through Sunday, March 4, until 5:00 p.m., due to the possibility of inclement weather. The closure is needed to install underground utilities.

Intersections experiencing detours are: Myers Park Drive/Lafayette Street and Suwannee Street at Myers Park Drive/Gaines Street. Traffic will be detoured through Myers Park Drive. Motorists are advised to use caution in these areas.

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.

TRAFFIC SHIFT SCHEDULED FOR CAPITAL CIRCLE
Motorists should be alert for new traffic pattern

On Monday, January 16, crews will shift eastbound traffic on Capital Circle from just east of Crawfordville Road to Woodville Highway to the newly constructed roadway. Westbound traffic will continue to travel on the existing westbound lanes for a few days while work continues in the median. After the median work has been completed, the westbound traffic will be shifted to the new roadway.

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.

NEW TRAFFIC PATTERN ON FRANKLIN BOULEVARD

Blueprint 2000 announces that northbound traffic lanes on Franklin Boulevard are being temporarily converted to a two-way roadway from East Tennessee Street to Jefferson Street for approximately four (4) months. Southbound Franklin Boulevard will be closed to accommodate the relocation and replacement of overhead utilities, sanitary sewer and gas lines. This work is part of the Franklin Boulevard Flood Relief Project. The closure of southbound lanes and the northbound lanes conversion to two-way traffic is anticipated to begin on Monday, January 9, 2012, and continue through mid-April 2012. After this time there will be closures of the entire roadway until the anticipated completion date of August 2012. The east/west streets crossing Franklin Boulevard will be opened at all times, except for temporary closures to allow construction at the crossings.

Motorists travelling east on Tennessee Street will not be able to turn right onto Franklin Boulevard during this construction period. Detour routes will be clearly posted, as well as “Local Traffic Only” signs for access. Motorists are advised to use caution in these areas. Attached and enclosed is a map of the new traffic pattern.

Construction along Franklin Boulevard will involve enclosing the open ditch and installing a box culvert. Other activities include: reducing the street from the four existing lanes to two 11-foot lanes; adding 4-foot bike lanes, a 6-foot sidewalk, a 10-foot multi-use trail; and installing left turn lanes at Park Avenue, a southbound left turn lane at Jefferson Street, and a northbound left turn lane at College Avenue.

In preparation for the closure, Blueprint personnel will be stationed at the intersection of Tennessee Street and Franklin Boulevard to pass out information and stress balls to motorists on Thursday, January 5th and Friday, January 6th from 7:30 a.m to 9:00 a.m.

The project is being funded by Blueprint 2000 and by a Community Development Block Grant (CDBG) from the U.S. Department of Housing and Urban Development. The estimated cost to construct the improvements is $7.8 million, which includes $4.2 million from CDBG. The CDBG grant is being managed by the Florida Department of Economic Opportunity.

If you have questions, please contact Blueprint 2000 at 850-219-1060. For details on this and other Blueprint 2000 projects, log on to www.blueprint2000.org.
