Thanks I LOVE what you are doing!!

we have many great bike/walk facilities

Needs:

+1 hold dangerous drivers accountable.

(Can we urge everyone who uses crosswalks has

4 put solar lights on lots (huskeite chenery) been hit or nearly hit and drivers on lots (huskeite chenery) don’t get tickets (I was hit and gang near fireground either no ticket or no one knows)

+2 slow streets to <30 mph on most city streets (on street parking helps)

+3 get rid of many parking lots by sharing them

Churches with businesses - Parking meters on private lots?

Very excited about project.

But need to slow down traffic on Magnolia. Putting a light on Jinnie and Circle is essential to both slow traffic and allow Myer park residents to access the trail and Optimist Park. The intersection near Hokelin may be ideal location.

In addition need safe features protecting pedestrians from cars drifting. Also need to strategically locate bus stops. And need to be aware of Hartsfield school kids walking down magnolia and needing to cross near the school.

- Please build sidewalks on west side of Magnolia between Chowkeebin and Azalea - very important for school children in Magnolia Grove.
- Please consider a crossing halfway between Jim Lee and Circle, so pedestrians can access bus stops and move between Winterwood and Windlowen drives.
- Please consider pedestrian illumination
- Please improve curb turning radius at crossings so that cars turn at a safe speed, not an efficient speed. Lafayette turn radius are too dangerous.
- Where the path is directly adjacent to the roadway, consider a substantial, continuous barrier.

Addition to Phase 1

Cable to parking critical - to access local businesses.

Signage lighting would also be helpful for pedestrians!

Agree with safe route rather than amenities, including teachers' now.

North-South corridor between Jim Lee & Parkway has would have the most potential use. Please provide continuous path or sidewalk on at least one side. (Lafayette to Parkway already has sidewalk on E side) Would be nice to have 3’ landscape strip behind curb as far as possible.

Maybe it's a dare deal that you are starting with the segment adjacent to the south side of the golf course - seems to me that the most critically needed segment is the one north of the new crossing at Circle connecting to the new sidewalk near the light at Magnolia + Lafayette.

Seems like this southernmost segment is the LEAST needed of the entire Magnolia Corridor.

Thanks for all you've done so far! You are making Indianhead even more livable.

The priority should be the blocks between Lafayette & Osceola Nene.

This would provide safer foot traffic and higher connectivity to schools, Cascade Park & Shop Local.

Thanks for all of the improvements you have made so far!

Jill Canon
